

# SADDLE BUTTE PRESS

# SUMMERTIME FUN

PRESIDENT'S MESSAGE

Greetings fellow ARPC members, as the good weather continues to arrive more club projects will continue to completed. The safety fence at the south end of the main range has been installed; vegetation spraying continues to put a crimp in the ever encroaching blackberries and other unwanted plant life. Mike continues to work with the county on the conditional use permit, and by the time you receive this news bulletin we will have firmed up the plans and permits for the new restrooms on the north range. Work continues on the north east corner of the property we hope to have vehicle access to it soon, it also looks like members are taking advantage of the free fire wood that is available on this section of property.

We do have a lot of projects that we would like to complete this year before the winter weather stops us. If you want to get your work bond out of the way while the weather is nice, contact our Executive officer or the Executive director they have a list of projects for anyone interested in completing their work bond. That's all for now, see you at the range.

Steve Shippey

FULL BAYS ON THE NORTH RANGE

When you come out to the North Range to shoot in any of the seven shooting bays, you may find them occupied by other members. What do you do? North range bays are used by members just like the main range: we share space. Just because you are the first person to occupy a bay doesn't mean that you have sole possession of it. Share a bay with a fellow club member and have some fun together.

Caution! When multiple shooters share a shooting bay you must communicate on safety issues and target setting because there is no safety alarm system in these shooting bays.

Please use common courtesy when asking to share a bay and remember the shoe might be on the other foot next time when you are looking for a shooting bay. ARPC has applied to

Linn County to upgrade our conditional use permit, which will allow regular member use of bays eight through 12. We cannot use these bays on a regular basis until we have their approval.

GUEST BADGES AND MEMBERSHIP STICKERS

If your membership sticker has worn out and you would like a new one, there are extra stickers in the red box just inside the back door of the main clubhouse. We didn't send out new stickers this year because they were not dated with the club year and looked exactly

WELCOME NEW MEMBERS

- Mitch Schmidtke • Rod Carter • Scott DiNardo
- TonyMcDonald • JerryMedlock • RaymondMertin
- Lucky M. Moises • Dave Zuber • Adam Bernosky
- Clifford S. Filley • David E. Graham • Darin Riherd
- Brian L. DeWolf • Will Cooper • Cameron Carpenter
- John Henning • Jerry A. Iverson • James Marchuk
- Scott McAleer • Gabe Nelson • R. Steven Parrent
- Travis Klein • Ray Rabago

FULL AUTO THANK YOU

By the time you read this newsletter the 2008 Saddle Butte Full Auto Shoot will have taken place. More than 50 club members helped to put on this event which benefits the club and introduces more people to our Second Amendment freedom to shoot a machine gun. The Executive Board of ARPC and the Saddle Butte Machine Gun Committee wants to thank all of those volunteers who helped put on a safe, fun event. Please be sure to let the Executive Board know if you have ideas on how they might improve the 2009 Saddle Butte Machine Gun Shoot. This event could not take place without our volunteers.

like last year's. However, some of your membership badge stickers look pretty shabby and if you want a new one, they are available at no charge.

In addition to membership stickers, the red box contains a roll of visitor badges. Please remember to fill out a visitor badge for each of your guests when they are on any range at the club and fill out the Guest Log. We are trying to keep track of how many non-members use our facility.

The emergency telephone is on the wall right next to the red box for use during emergencies. Do not hesitate to call 911 in the event of an emergency followed up by a call to one of the Executive Board members or the Executive Director. Important phone numbers will be listed next to the 911 poster.

ABC HOUSE BENEFIT MATCH

The 2008 ABC House Benefit Match will take place on Sunday, June 15th, 2008 on the north range of Albany Rifle and Pistol Club. This is the sixth or seventh year of the ABC House Benefit Match which, to date, has raised over \$30,000 to support the ABC House (All Because of Children) in Albany. Albany Rifle and Pistol Club is very happy to be part of this fund raising effort.

Karen Scheler, Executive Director for the All Because of Children organization, explains, "The primary purpose for this center is to provide a safe, friendly place where assessments take place surrounding possible child abuse situations." In addition, "The center provides medical/psychological evaluations, counseling and community education." The ABC House depends on funds from many different sources to continue to provide this valuable service for children and the community.

HUNTER EDUCATION CLASSES

Dwain Thomas has starting this years hunter education classes at ARPC. He says "the minute I announce a class it is filled up so get your name on the list, now!" Dwain will be conducting his next class June 20th, 27th & 28th at the club. He is also scheduling classes for July and August at this time. If you have a junior who wants to get a hunting license and go hunting then this is the class they want to take.

For further information or to schedule a class, call Dwain Thomas at 541-967-7554.

ARPC CONSTRUCTION

During the month of June the club will be working hard to finish the 50-yard main range berms and the in-ground restrooms on the north range. Please take a look at the club website before traveling to the range to make sure the range on which you want to shoot is open. We will make every effort to keep ranges open and they will not be closed down on the weekends. These two projects are under ODFW grants and have to be finished by the first of July. Wet weather has hampered construction efforts to date and we don't have too much time to waste in order to complete the projects by the deadline. Please call the club office (541-619-0038) if you have any questions about range closures.

SHOOTING TARGETS

What targets are okay to shoot at Albany Rifle and Pistol Club?

Here is a short list of what to use for targets at the various ranges:

- **Main Range** – Targets on target boards and club steel targets.

- **Shotgun Range** – Clay birds, targets on target boards and club steel targets.

- **North Range** – Targets on target boards, steel targets (either the club's or your own), clay birds and other non-breakable targets (glass, plastic, vegetable) that you bring and after use of which you clean up any mess. Barrels and Props used in shooting events are not acceptable targets. If you need a cardboard target, look in the white cabinet outside Bay Three, on the West side of the building.

- **NO ALCOHOL CONTAINERS OR BEER CANS**

HIGH POWER RIFLE MATCH SCORES

At the April 19 ARPC high power rifle match, ARPC life member John Benjamin set three new national records for seniors: standing (197-6x), sitting (200-13X), and aggregate (794-41x). Allen Spiker tied Nelson Shew's record (196-4x) for standing (by service personnel). Several of our regular shooters, including John Benjamin, Trent Hering, Melvin Makin, Nelson Shew, and Allen Spiker, already hold national records, but these are the first high power national records fired at ARPC.

Congratulations to all of you!

## SHOTGUN AND EXECUTIVE OFFICER'S REPORT

Summer is upon us and the Machine gun shoot is but a memory. Time flies, does it not? Thanks to all of those who helped with the shoot before, during, and after. Without those folks out there, we would not be able to have these functions at our club. Thank you all.

The steel plate is gone. We hope to replace it soon. Right now we have a list of other things to be done. As soon as we can, the plate will be replaced. I, too, enjoy shooting at the dumb thing so we will work at it.

I would like to make a plea to all of our members. Two things: first when you have guests at the range you are responsible for them and the things they do. Next, using rocks for targets is not a good thing to do. The other day I was at the shotgun range minding my own business when ricochets were flying over my head. Three to be exact. When I looked over at the main range I saw bullets impacting around a big rock on a steady basis. I walked over to the range and watched two young men walking down to the two hundred yard line and inspecting the damage they did to the rock. It turns out the young men were the sons of one of our members and one of his guests. A short educational conversation was held and there were no more problems.

The point I am trying to make here is we are ALL responsible for what happens at our range. If a bullet leaves the range and either causes damage, injury, or God forbid, a death, you can kiss this range, its property, and its money goodbye. If that is all that happened we would be lucky. So let us all step up and be responsible, have some pride in our range, and have fun while doing so.

I know our CRSO is going to find ways for our range officers to schedule time at the range and I think this will help in keeping our range a safe place to shoot. When John does start the sign-up sheet, you folks who are range officers jump right in and get some time in. Just like the work bond folks, you are needed.

On to the shotgun area. The weather is starting to get better and shooting is picking up at the trap range. If you decide to come over to join the fun, I have a new shoot going on right now that gives you a lot of trigger time. No one gets "shot out" and everyone wins. The old saying about practice makes perfect really does hold true. Especially with shotguns. By the way, our crowds are not a large as they were once were. We have more members shooting now than ever before. On most nights the members outnumber the non-members. That is a good thing.

Five stand is rolling along and Tom and Ray seem to have all of the bugs worked out of the old machines so there should not be the hangups they were experiencing from breakdowns that seemed to happen right in the middle of a round. Hey, it is a machine and machines break when they are used and, brother, are these things used. Some of these machines are older than some of our middle aged members and have thrown millions of targets. I guess they deserve to break now and then. For those of you who think you are some kind of a super upland game shooter

or a duck hunter extraordinaire, come on over and give it a try. (yes that is a challenge) You might be surprised.

That's it for this month. I'll see ya at the range and shoot lots of bullets.

KEEP YOUR HEAD DOWN AND EYE ON THE TARGET

*Don Arnold*  
ALBANY RIFLE AND PISTOL CLUB  
XO/SHOTGUN DIRECTOR

## CHIEF SAFETY RANGE OFFICER SOAPBOX

I had an opportunity recently to observe members and quests at our range in the capacity as a club range officer. In the 5 hours I was there I observed 2 major range rules violations and several eyewear safety violations. I hope these incidents were not the normal day in and day out actions of our membership as a whole, but the inattention of just a few people trying to get a few rounds downrange.

The 2 major rules violations involved handling guns during a cease fire. One was the bringing in of a rifle uncased during a cease fire. Another was the handling of a firearm with people downrange. I know everyone who goes through the doors of the main range has read the sign on every door that says not to bring in uncased firearms during a cease fire, but safety must be observed! Eyewear by quests in the background must also be enforced in the event of an accident.

As a result and following a stated goal of the Executive Board we will be having Range Officers at the club on weekends starting soon. First and foremost these ROs will be looking to make sure safety is the first concern while at the range. I hope your experience at ARPC is enjoyable and safe.

The next Range Officer class will be June 17th at 6:00pm at the main range Clubhouse.

## EXECUTIVE DIRECTOR'S ARTICLE

Summertime is upon us and it is time to get out and shoot. It is also a busy time at ARPC with special matches, events, and members enjoying the freedom to shoot. Please feel free to give the office a call if you have any questions about activities, range closures or special rules during the summer. We are here to help.

Summer is also the time to be very careful around the range because of smoking and the danger of fire. Watch out for bees and snakes. Drink plenty of water during hot days.

Should you have an accident or witness one do not hesitate to call 911. The bottom line is to be safe in everything you do around the club and enjoy the facilities.

There will be a large amount of construction taking place this summer and extra caution is needed while driving around equipment and people working. Please feel free to ask questions when you see anyone working on a project.

## CLASSIFIED ADS

This section is for members who would like to advertise something for sale or wanted. If the item for sale is a gun, then remember that all gun transfer rules must be followed. The best part of this is it is FREE for members to place an ad.

To place an ad send e-mail to Tony White (ARPC newsletter editor) at whitet3260@comcast.net. Deadline for the newsletter advertisement is the 15th of the month prior!!!

**THE JACOB E GROUP**, Firearms Training for Oregon CHL and Utah Concealed Firearms Permit. NRA, State, DPSST, Nationally Certified Instructors. Oregon CHL class held at ARPC the 3rd Tuesday of every month, see club calendar. Call Jim Jacobs @ (503) 362-0584 or see www.jimjacobs.com for schedule and complete list of classes.
