

# SADDLE BUTTE PRESS

## ENJOY OUR INDEPENDENCE EVERYDAY

### PRESIDENTS MESSAGE

"SUMMER IS HERE." and I hope that all of you are enjoying what we have had of it so far. Projects at the club are moving along. We have applied for 2008 grants through ODF&W (Oregon dept. of fish and wildlife) for projects beginning in July as well as additional grants from other funding sources. The summer as you know is our busiest time of the year. A lot of members and their guests come through the gate from now through October. Please keep "Safety First" and remember that you, the member, are responsible for your guests. So make them your priority, teach them safe firearms practices and don't turn them loose expecting that they know what you know when it comes to gun safety. This is your club, please take care of it, have fun and enjoy it.

Steve Shippey  
PRESIDENT

### DON'T FORGET OUR TROOPS

There is a huge rock near a gravel pit on Hwy. 25 in rural Iowa. For generations kids have painted slogans, names and obscenities on this rock, changing its character many times. A few months back, the rock received its latest paint job, and since then it has been left completely undisturbed. It's quite an impressive sight. Be sure to check out all the photos and all angles of the rock. Meet the young artist, Ray 'Bubba' Sorensen in one of the photos. "If we ever forget that we're One Nation Under God, then we will be a nation gone under." ... Ronald Reagan.

### NEW GATE ENTRY SYSTEM

The front main gate scanning pad has been replaced with a combination scan pad and button system. It still works the same as the old scanning pad and your gate cards will open the gate. Beginning in July, all extra gates will stay closed for special events and discipline shoots. The

purpose behind this system is to limit the number of visitors who drive through the open gates during events. Unknowing visitors do not know ARPC range rules and have the potential to get into dangerous safety situations on the range. Visitors are welcome at ARPC but they must be accompanied by a member at all times when on the property.

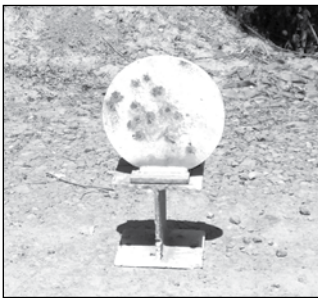

Each event or discipline shoot will have a number assigned to it and given to all participants. When they drive up to the main front gate they enter the number followed by the # key and the gate will open. Each number only lasts for that day and will not work at any other time. Contact your event director if you are scheduled to shoot in an upcoming event or discipline shoot and they will give you the number to use on the gate system. Call the ARPC office if you have any problems with the front main gate system.

### JUNIOR TRAP SHOOTING

On Saturday, July 19th, Albany Rifle and Pistol Club will begin junior trap shooting at the Shotgun Range. At 9 am a meeting will be held explaining the trap program to parents and juniors followed by a shoot. Juniors do not need previous experience or equipment and there is no cost for this day. This program is open to all boys and girls under the age of 18. Please contact Don Arnold at 541-491-1014 for further information on this program.

### THEFT ON THE NORTH RANGE

On Thursday, June 12th, someone removed a steel target and stand from Bay 6 on the North Range. This target was set up for a junior USP-SA practice and qualification session along with two other steel tar-

gets. Over the years we have lost several steel targets or stands and just replaced them with your club funds. However, this is taking something away from the junior shooting program and stealing your club property. We want to give the benefit of the doubt that it was removed from the bay by mistake and will be returned soon.

Stealing club property can result in the loss of your club membership. Since the gate system records everyone who entered the club we will be contacting all club members who used the range that day. If this member thinks they can use this target for their own personal target on ARPC property in the future, think again. Take a look at the picture and give the club office a call if you see it. All eyes will be watching for this target.

### SEPTEMBER GUNSHOW REPORT

Hi Members. Hopefully summer has arrived and everyone has a great Fourth of July party. The idea that all men are created equal and have certain rights that cannot be taken away is still

as important today as it was in 1776. People are still fighting for our rights today and their sacrifice should not go in vain. We are gearing up for the gunshow. Look in next month's newsletter for who to call and when for volunteering. The dates are September 27th and the 28th. The Spring show was great and I expect this show to be the largest one to date. The Albany Expo Center should be stuffed with guns and gun-related items and only that, making our show the best GUN show in the state. See you there.

### GATE CARDS TURNED OFF

Gate cards have been turned off on all members who have not renewed their 2008 club membership. Should you run into a situation where your gate card does not work just give the club office a call at 541-619-0038. Please accept our apologies in advance if we have turned off your gate card by mistake or not recorded your membership renewal.

Renewal notices were included in the January and February newsletters and most members

### WELCOME NEW MEMBERS

have renewed for 2008. If you are one of those members who didn't renew, please call Bob Hamilton, club treasurer, Art Carmean, membership director, or the club office. 2007 members can renew their membership by paying the full amount owed for 2008.

**NEW M1 GARAND AMMUNITION**

News Release – Hornady Manufacturing: Hornady proudly announces a new addition to their Match ammunition line – a purpose-built 30-06 match load specifically designed for the M1 Garand. Hornady M1 Garand ammunition is loaded with a 168 gr. A-MAX™ bullet that launches at 2,710 feet per second and provides match-winning accuracy. Carefully designed medium burn propellants protect the rifle's intricate gas port system, allowing safe and accurate firing of the M1 rifle, and meets all Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) guidelines.

**INDOOR STATE CHAMPIONSHIP**

Left to Right: Steve Suing, Scope State Champion. Nelson Shew Iron State Champion. 7 National Records Drake Karstens\* Hi Sub Jr..Iron Sight 3 National Records Mackenzie Green, Hi Woman 8 National Records Logan Hopkins\* Hi Jr. Scope Sight 3 National Records Allen Spiker Hi Reserve 3 National Records

24 national records were set at ARPC during the Oregon Indoor Conventional State Championship Individual Match. Two Juniors from Junior Smallbore at ARPC won three each: Drake Karstens for Iron Sight and Logan Hopkins for Scope Sight. All records are pending NRA verification which could take up to three months.

On Father's Day the Team Matches were held and a Father-Son competed on the Santiam Team which came in first. What a memory for Doug and Ben Roth! The ARPC Hotshots Rifle Team were Hi Juniors, Logan Hopkins, Jocelyn Jordan, Joel Stutzman and Justin Davison.

A Big Hug To Doug Roth for building the extensions to our target frames so they would hold backer targets. And one to Curt Stutzman for

being willing to score a huge pile of targets for us.

Barbara Shew

**SHOOTERS INTELLIGENCE TEST**

This is a test for smart shooters. Can you qualify? The following short quiz consists of four questions and will tell you whether you are qualified to be a smart shooter. The questions are not difficult so don't look at the written answer until you answer the question otherwise you will be cheating and then we will know that you can't be trusted to shoot competitively.

How do you put a giraffe into a refrigerator? The correct answer is to open the refrigerator, put in the giraffe and close the door. This question tests whether you tend to do simple things in an overly complicated way.

How do you put an elephant into a refrigerator? Did you say "Open the refrigerator, put in the elephant and close the door? Wrong answer! The correct answer is to open the refrigerator, take out the giraffe, put in the elephant and close the door. This tests your ability to think through the repercussions of your previous actions.

Now read this carefully. The Lion King is hosting an animal conference. All the animals attend except for one. Which animal does not attend? The correct answer is the elephant because you left it in the refrigerator. This tests your memory. Okay, even if you did not answer the first three questions correctly you still have one more chance to show your true abilities.

There is a river you must cross but it is used by crocodiles and you do not have a boat. How do you get across the river? You jump into the river and swim across. Haven't you been listening? All the crocodiles are attending the animal conference. This test whether you learn quickly from your mistakes.

According to Anderson Consulting Worldwide, around 90% of professionals they tested got all questions wrong but many preschoolers got several answers correct. How does your brain compare to that of a preschooler? Maybe we should let more juniors shoot at the club, just not in competitions.

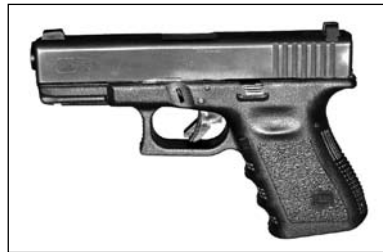

**RANGE CONSTRUCTION**

Please watch the live newsletter calendar or give the office a call (541-619-0038) before coming out to the club in July. We will be installing the 50-yard target backstops in the month of July and do not have a specific date for this work. Some of the building materials are not available

at this time and the work depends on when they can be delivered to the club. Construction will take about five mornings to complete and we will not work on it during the weekends. We will also post signs a week ahead of time to give as much advanced notice as possible prior to starting the work.

**GLOCK SPORT SHOOTING FOUNDATION MATCH**

Albany Rifle and Pistol Club will hold one of the national Glock Sport Shooting Foundation (GSSF) matches on Saturday and Sunday, August 2nd-3rd. GSSF supports Glock shooting by holding these matches in every state of the union throughout the year. Club members and the public shoot three courses of fire in different divisions as many times as they want in this competition. It costs \$25 each time they shoot these three stages. All shooting takes place from the low ready position. There is no movement and no speed reloading. To look at the stages and how it works go to [www.gssfonline.com](http://www.gssfonline.com).

This competition should draw between 300 and 500 people from all over the Northwest and we need your help. We need at least 20 people to be range officers for the match. You do not need to be an ARPC range officer to be a range officer in the match. For every four hours you work as a range officer you will be given a ticket to win a free Glock pistol and we are giving away a Glock to one of the range officers.. In addition, you can shoot the stages free if you own a Glock. For every four hours you work you get a ticket. The more tickets you get the better the odds are that you will win a Glock. We will provide all the training you need to work the match and your work bond hours will count.

It is very hard to recruit one of these matches and we feel very proud of the fact that we can put on one of the two matches to be held in Oregon. If you don't want to compete in the match and own a Glock, bring it out to the range. The Glock armorer will take it apart and replace any worn parts free of charge.

Please give the club office a call (541-619-0038) if you want to be part of a special match and have a chance to win a Glock pistol.

**IF YOU BRING IT - TAKE IT HOME**

This article speaks mainly to those members and guests that use the North Range bays, but it applies to all members who shoot on all ranges. If you bring targets or props to shoot please take them home with you after you are done. We are generating a large quantity of trash left behind by members and shooting

Please have your guests fill out a guest badge

disciplines. There are no employees at ARPC; volunteers clean up the bays on work bond Saturday. This can leave 30 days or more in between cleanup days. The best rule of thumb to use when shooting at ARPC is: "leave it better than when you found it".

We have made sure there are brooms, dust pans, burn barrels and new garbage cans in each bay building. The garbage cans and burn barrels are not target holders or targets. The burn barrels are unusable due to fire restrictions in the summer so please take your used targets home with you.

The BLUE plastic buckets are to be used for empty brass and the RED plastic buckets are for dud or unfired rounds only. These buckets are not garbage cans. If you use Blazer ammunition or steel-cased bullets please throw the empty rounds away. Don't throw live rounds in the garbage or burn barrels.

Again, "leave it better than when you found it."

**SHOTGUN AND EXECUTIVE OFFICER'S REPORT**

Greetings from the XO. The club has so much going on I sometimes don't know where to start. So at least I will say thanks to those who are continually showing up for work bond. Not only are you folks having a good time, but you are enjoying the cinnamon rolls my wife bakes fresh for the crew. Not many, if any, go home. You folks may notice the red borders on the target frames. That means "do not shoot here". The boards can hang in there but the frames need a bit of help to stay together. Just remember the rule to not shoot anything red. Mike is working on getting the gong back up and it just may be up by the time this gets to your home. The frame will be made up of steel but won't be indestructible so just shoot the gong. Please?

We have been using the Linn County Sheriff's inmate work crew to clean up brush and grass at the range. These work crews are an excellent source of labor and we plan on using them again in the future. In order to get all the work done at the club we may have to shut down parts of the club. Be sure to check the web site to find out if there is anything going on at the range, including closures, so you don't waste a trip. We try to keep the range open all the time, but there are some things we have to get things done during the week that requires shutting down parts of the range for a short periods of time.

One last thing before moving on to shotgun stuff. There are a bunch of events happening at the range this summer. We will need lots of help to make these events run smoothly. The only way that happens is with help from our members. All I can say to all those who volunteer is THANKS.

On to shotgun. We are having small turnouts for trap but it is still fun. Most of the folks shooting are members and seem to enjoy the smaller groups. Tom Smith tells me he has small crowds showing up for five stand and he is going to start shooting only two days a month through the summer. For those of you that are interested in five stand, watch the calendar. Trap has not changed their hours or days.

Enough for now. I'll see you at the range and shoot lots of bullets.

KEEP YOUR HEAD DOWN AND EYE ON THE TARGET

*Don Arnold*

ALBANY RIFLE AND PISTOL CLUB  
XO/SHOTGUN DIRECTOR

**EXECUTIVE DIRECTOR**

If you like to shoot then belonging to ARPC is a great value. Recently we have seen fuel prices and the cost of ammunition or reloading components take dramatic increases. There is no doubt that it costs you more to shoot nowadays than it did six months or a year ago. How can we continue to recreationally shoot and enjoy the smell of gun smoke?

Traveling to the woods to try to find a place to shoot is not the answer. Dropping your membership to ARPC or quitting altogether is not the answer either. Take a look at a couple of ideas to save you money and have fun shooting.

First, plan your trips to the range and stay a little longer by shooting more than one or two firearms. Bring everything you need with you to the range and make the trip a more enjoyable stay. Second, invite a friend and share the costs to the range by splitting the gas or taking turns driving to the range. Besides, bragging rights are more fun when friends shoot together. Third, think about reloading your ammunition and buying reloading components from the ARPC store. Reloading your own bullets can save you anywhere from 25% to 50%. Fourth, plan a shooting trip to the range on work bond Saturday and save money on your membership renewal, then shoot at noon when work bond work is finished.

Almost every day I receive phone calls from people looking for a place to shoot because the woods have been shut down, or, if they have a spot to shoot it takes a half of tank of gas to get to it. When you do the math, an individual membership, where a member puts in 12 hours of work for the club, costs only \$5 per month. Even if they don't put in any work bond time the monthly cost is only a little over \$11 per month. Compare that to belonging to a golf club or the membership at an athletic club. Your membership at ARPC is one of the best values for your recreational dollars so take the time to stay longer and have fun.

**CLASSIFIED ADS**

This section is for members who would like to advertise something for sale or wanted. If the item for sale is a gun, then remember that all gun transfer rules must be followed. The best part of this is it is FREE for members to place an ad.

To place an ad send e-mail to Tony White (ARPC newsletter editor) at whitet3260@comcast.net. Deadline for the newsletter advertisement is the 15th of the month prior!!!

**THE JACOBE GROUP**, Firearms Training for Oregon CHL and Utah Concealed Firearms Permit. NRA, State, DPSST, Nationally Certified Instructors. Oregon CHL class held at ARPC the 3rd Tuesday of every month, see club calendar. Call Jim Jacobs @ (503) 362-0584 or see www.jimjacobe.com for schedule and complete list of classes.
