SADDLE BUTTE MACHINE GUN SHOOT

Wow! What a Blast! The 2010 Saddle Butte Machine Gun Shoot was a great success. It was estimated that on Saturday there were over \$2,250,000 worth of machine guns on the line available for people to shoot. Special shooting platforms included a 1945 deuce and a half with both a 50 caliber and 30 caliber machine gun, and a humvee with 50 caliber mounted machine gun.

The weather cooperated, the food was great, the vendors were fantastic and the event came off without a hitch. Everything worked smoothly thanks to the tear down crew on Friday, the gate crew, parking lot crew, range officers, tee shirt table, junior snack table, first aid EMTs and the setup crew on Monday. Attendance figures were not available at the time this article was written.

PRESIDENT'S COLUMN

June is here and there are more good weather days than bad ones. If you haven't been to the club in a while it's time to get off of your duff, grab a shoot-in' iron and pay it a visit. There are more things to do, more places to shoot and more fun to be had. So grab the family and maybe a picnic lunch, your shootin' irons and come have some fun, it's what you pay your dues for! Right?

Keep watching the newsletter for updates, and for breaking news check the website www.arpc.info. See you at the club.

MACHINE GUN SHOOT

Thank you to all the volunteers who helped with the Saddle Butte Machine Gun shoot. This event keeps getting bigger and better every year with the help of the 90 plus volunteers that make it happen. Again a big "Thank You" and we hope to see again next year.

Machine Gun Shoot Committee.

NORTH RANGE TARGET STANDS

The concept of providing a new type of target system on the north range for member use is working quite well. Okay, almost working! I find it hard to believe that our members (or their guests) cannot hit the target but manage to hit the stand that holds the target sticks. It is becoming a game for the club to build range equipment in such a manner that members can't destroy it. This sounds frustrating and it is. The club pays good money to build and provide equipment for our members and their guests. When it gets destroyed we have a problem. Recently someone destroyed the club chronograph because they had a hard time putting a round through the opening in the front of the chronograph box. 6238

We don't like to put issues like this into the newsletter but when there is a problem we must communicate it to the membership and try to correct it. Always be aware of your target environment and don't place target stands in front of other targets. If you see a damaged target stand please take it to the club office for repair.

RANGE RULE UPDATES

The club range rules have been updated and are available on the club website, posted in the main range clubhouse and on all shooting ranges except the east range. Please take some time to read through these rules.

Bays 8 through 12 are open for member use and will soon have noise reduction structures added to them. Until the parking area below the bays opens up you can drive up to these bays and unload your shooting equipment but you must park at the gravel turn around next to bay 7. No vehicle parking is allowed next to bays 8 through 12.

CLUB CALENDAR

In an attempt to make the club calendar smaller and easier to print we tried to put some of the day information in the background. This is a purchased program and thus has limited options on format. The club office is continually updating the calendar and trying to make it more user friendly. If you are looking at the calendar online and want more information about a particular event, just put your cursor on the event and click. It should show you another window with additional information about that event.

FRIENDS OF NRA

Albany Rifle and Pistol Club and the Mid-Valley Friends of the NRA committee want to thank all of those folks who supported and attended the banquet held on the 15th of May. It was a very successful banquet, great food and a lot of fun. One of our club members actually walked away with two firearms from ticket drawings. Please consider attending this event next year, which will be held on the 14th of May. So save the date and join the fun!

WANTED: OLD FIREARMS

The main range clubhouse remodel project is nearing completion and we are looking for some old firearms to display along with our wildlife mounts. If you have an old gun that

SAFETY RULES TO REMEMBER

1. Every gun is ALWAYS loaded. No matter how many times you check a gun to see if it is loaded or watch someone else check it, you must ALWAYS check to make sure it is unloaded when you touch a gun.
2. NEVER put your finger on the trigger until your sights are on the target. Handling a gun with your finger on the trigger is asking for trouble. Your finger goes outside the trigger guard until your sights are on the target and you are ready to shoot.
3. NEVER point your firearm at anything you are not willing to destroy. This goes for fruit, flower, steel, wood, paper, clay, animal or human and it doesn't matter if you think the firearm is unloaded. Remember rule #1.
4. ALWAYS be aware of the environment surrounding your target. It may look like there is a good backstop; however, bullets travel long distances and can ricochet off into directions you would never think possible.
5. ALWAYS wear your safety gear around firearms. It doesn't matter if someone else is shooting, guns can blow up and shrapnel can fly around when bullets hit hard objects. You may not have a problem but someone across the range might.
