Saddle Butte Machine Gun Shoot

Saddle Butte Machine Gun Shoot...

THANK YOU!

The SBMGS committee and I would like to thank all of the volunteers that made this year's Machine Gun Shoot a Safe and Fun time. Without your help, this event would not be possible. We are looking forward to next year's event and hope we can count on the dedicated individuals who make this happen.

Again Thank You!!

ABC House Benefit Match

Albany Rifle and Pistol Club is proud to sponsor the

11th Annual ABC House Benefit Shooting Match Saturday, June 18.

In the past ten years of our involvement, the event organizers have raised over \$50,000 for this worthwhile cause!

ABC House is a local child abuse assessment center serving children of Linn and Benton Counties ages newborn to 18 years old. It is a non-profit organization which provides a

safe, child friendly environment where children who are suspected of having been abused or neglected can come to receive a neutral, objective, comprehensive assessment. Assessments may include a head to toe medical check up and/or an interview conducted by specially trained and experienced individuals. Families receive support and information to help their children begin the healing process.

Please click on the attached link for an application or for further information phone Doug Newquist at 541-401-7084.

Work Bond Hours Are Available

ARPC needs workers/volunteers during the week for special projects and range cleanup. If you want to help at the club and get work bond hours in against your renewal fees just give the office a call (541-491-3755) to volunteer. It is important that you call ahead because that gives the staff time to prepare supplies or special needs for the job. 6920 Remember, the best time to volunteer is when the weather is good. Don't wait until the last minute, prior to renewal, to get your hours in, there might not be that much work available in the rain. Work bond hours are not guaranteed; when you want to do the work may not be the time it needs to get done. We will continue to remind you not to wait until the last minute.

Gun Bills On The Move

Thanks to the quick actions taken by ARPC members and other concerned firearm owners, three gun bills will be moving out of the Senate Judiciary Committee to work sessions. It is too bad that it takes extra effort to keep important legislation moving but now is not the time to back off.

As stated in a recent Oregon Firearms Federation alert (5.23.11) "Make no mistake, it was your pressure that forced the Committee Chair to put these bills on the schedule. But we have a long way to go. As we have said, we believe there may be some very damaging amendments that could be attached to these bills, so we still need to keep the pressure on to make sure they are passed with no amendments."

"Committee Chairmen typically do NOT schedule bills they don't plan to pass, but this committee is controlled by anti-gun Democrats so they might very well have some tricks up their sleeves. Don't stop now. Please contact the (Judiciary) committee and urge them to pass these three bills as they are with no amendments. And thanks for all you have done, against all odds, so far."

HB 2797 has been scheduled for May 26 at 8am. This bill does nothing more than clarify a lawful way to transport a handgun on a motorcycle and any firearm on a snowmobile or ATV.

HB 2787 and 2792 are scheduled for June 1 at 8:30am. These two bills protect the privacy of CHL holders and recognize the concealed handgun licenses from other states respectively.

**USPSA Area 1
 Pistol
 Championships**
 June 23-26

Summer Events At ARPC

Keep a close eye on the club calendar this summer as there are currently three very large shooting events taking place in June, July and August. Not only do these events support some of the shooting disciplines that hold regular matches during the year, they also earn extra money and bring community attention due to the large number of competitors coming into the area.

Many of these events require setup and take down time before and after the match. Most of the time shooting is allowed during these events but be careful not to shoot match targets or move setups around while shooting in north / east range bays.

All shooting events and classes are open to ARPC club members, guests and visitors.

19194 Remember eye and ear protection is required when visiting any range on ARPC property except for the archery range. Be sure to call the match director (listed on the club calendar) if you have questions about shooting in or visiting one of these events.

Keep Your Eyes Open

ARPC is owned by the membership and when something happens near the club happens, it affects all of us. Last month we ran an article about a sheep that was shot on the property just north of the range. A week later just north of that shooting, someone shot and killed a calf. Neither of the property owners blamed ARPC members or visitors for the shootings, however when something like this happens close to our range, it does cast a negative shadow on us.

During the weekend of May 21st and 22nd someone cut the fence surrounding the shop area, cut the hose off the herbicide sprayer and siphoned gas out of the club pickup and mowers.

Please keep your eyes open while at the club or driving by. If you see something that looks strange or an activity that doesn't feel right give Range Master Mike McCarter a call at 541-619-0038 or phone one of the club Executive Officers. We will be more than happy to follow up. This is your property, equipment and investment, please treat it as you would your own.

September Gun Show And Other Volunteers Needed

As you can imagine, it takes many dedicated individuals to bring our gun shows to fruition. Since we have two shows per year, we are actively seeking detail-oriented individuals who are willing to become members of this committee. We would like to bring you on board to shadow the September show and be ready to roll for next March.

If this is something that interests you (and gets your work bond out of the way), please contact the ARPC office at 541-491-3755.

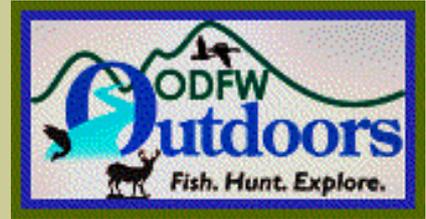

ALSO... we are always on the look out for individuals who would like to become members of our Executive Board and other key team groups within our club. 6575 Whatever your talent or ability, it can be utilized as a volunteer. Kindly consider volunteering for The Best Gun Club in Oregon.

Oregon Outdoor Activities

With what we hope is the approach of a drier season, it is important to remember that Oregon is a state rich in natural resources. The many lands and waters open to visitors include 27 million acres of forest lands; 34 million acres of grasslands, high desert, mountain ranges, wetlands and urban areas; 300 miles of ocean coastline; 450 miles of Columbia River shoreline; 112,000 miles of rivers and streams; and 6,000 lakes and reservoirs. This variety of habitats enables thousands of diverse native and migrating fish and wildlife species to thrive.

The continued health of these species depends on maintaining their access to the quality and quantity of habitats they need for water, food and nesting areas. It is the Oregon Department of Fish and Wildlife's statutory responsibility to provide the management needed to conserve the state's numerous fish and wildlife species, and to provide them optimum economic, commercial, recreational and aesthetic benefits for present and future generations of Oregonians and visitors.

As part of that Management responsibility, [ODFW](#) operates hatcheries and wildlife areas throughout the state. These sites provide some of the best bird, wildlife and fish viewing opportunities in North America. As you travel throughout Oregon, consider stopping at some of these locations to learn more about Oregon's fish and wildlife, and to enjoy nature's bounty.

Please visit [ODFW](#) for updated information on fishing, hunting, viewing and wildlife conservation throughout our majestic state. Get out and enjoy!!!
