Welcome New

support of educational programs since its inception in 1990. Since its establishment in October 1992, Friends of NRA events provide participants an opportunity to support the charitable goals of The NRA Foundation and enjoy the camaraderie of other law-abiding gun owners.

There is something for everyone at a Friends of NRA banquet. From the moment you walk in, the atmosphere is brimming with excitement. Whether you're keeping an eye on that unique item in the silent auction, trying your luck at the game tables, or just dining on some delicious food, you'll be sure to have a good time. It's a family-friendly event chock-full of everything from exclusive, limited edition merchandise, firearms, knives, art, jewelry, and more. Not to mention all the great people you'll meet in the process! FNRA has held over 16,000 events, reached over 2.8 million attendees and raised over \$230 million. Each year half of the net proceeds fund projects within the state in which the money was raised and the other half funds similar projects with a national scope.

ARPC is the driving force behind the Mid-Willamette Valley Friends of NRA as we sponsor the FNRA Banquet each year in March. There is something for everyone at the FNRA banquet. From the moment you walk in, the atmosphere is brimming with excitement. Whether you're keeping an eye on a unique item in the silent auction, trying your luck at the game tables, or just dining on some delicious food, you'll be sure to have a good time. It is a true family friendly event. This year we have added something different. If you sponsor a table for eight at \$600, one of the people at your table is guaranteed to win a Mossberg 715T AR type .22 rifle!

Last year there were over 20 firearms sold or given away at the banquet. And everyone who buys a ticket and attends the banquet is automatically entered into a drawing for a firearm. If you would like to purchase tickets, please call the ARPC Office at 541-491-3755.

Look What The Junior Team Did!

Six juniors from the ARPC Rifle Team competed at the Roseburg Rod & Gun Club Saturday, Feb. 15. Many thanks to Steve Hebner and the parents who corralled equipment so the kids could compete.

Pictured from left to right: Audrey Hebner 1st Place Neophyte (meaning prone supported) 516-4, Jack Meiner Prone Sling placed 4th 479-3, Good Job Jack! This was Jack's first away match, he is a very new shooter. Keegan Mier 2nd Place Neophyte 501-5, Reid Bates 1st Place Prone Sling 553-7, Conner Mier 3rd Place Prone Sling 490-1, Dyllon Isom 3rd Place Neophyte 471-2, this is Dyllon's first away match. Barbara Shew Coach

Are The North / East Ranges Busy?

Yes, especially on the weekends. Be a considerate member and offer to share a bay when someone asks. Remember, SAFETY must be the 'hub' of everything that takes place at Albany Rifle and Pistol Club. 8228 Good communication is a must when sharing a shooting bay and you might meet some new friends.

Five Stand is Back

After taking the winter off, Five Stand is back at ARPC in March. We shoot on the second Saturday and fourth Sunday from 1PM-4PM. If you enjoy shooting Trap then Five Stand will really get you excited! It is great practice for bird hunting and with a wide variety of target positions, really provides a challenge to shooters. Come on out, bring your friends and join us for a fun time on the Trap Range. If you have questions, please contact Chip Cover at 541-753-8330.

About Us

Albany Rifle and Pistol Club is centrally located in Linn County, Oregon and consists of six ranges. We are a membership club, however, we feature a wide variety of shooting disciplines and educational classes open to

Watch The Oregon Legislature

There are some new or re-written gun bills that have been introduced recently in the Oregon Legislature. Last month we asked you to take a look at SB1551 about eliminating private party firearm transfers without a background check. This publication does not endorse nor reject any bills. Very simply put, we bring these bills to your attention and ask you to take a look for yourselves at all aspects. Make your own informed decision and voice your opinion to your legislator. Oregon Firearm Federation is one of the places you can go to start checking out firearm issues in Oregon.

Have You Ever Shot Trap?

It's a fun way to spend an afternoon shooting with your buddies or making new friends. And the first round of trap is free to new shooters! If you have a bit of stage fright and are looking for one-on-one instruction, we are happy to provide it for you. We shoot on the

first, third and last Saturdays of the month from 12PM-4PM. We also have shoots every Wednesday from 12PM-5PM with special junior only shooting from 5PM-7PM. So dust off that old shotgun and come on out. Check the club calendar for special events and updates. If you have any questions contact either Ray Mertin at 503-949-1327 or Chip Cover at 541-753-8330 for adult trap or Don Arnold at 541-619-3238 for junior trap.

Indoor Range Safety Class

If you want open access to the indoor range without becoming a Range Officer, then you must take the Indoor Range Safety Class. The next class is at 4pm., Saturday, March 8th in the main range classroom. It is

the public.

Contact us to schedule a range tour. You'll like what you see.

not necessary to call ahead or register for this class. You must, however, read the Indoor Range Information Sheet and answer the questions prior to attending the class. 6992 You can pick up the information sheet at the Pro Shop or give the office (541-491-3755) a call and we will email it to you.

Saddle Butte Machine Gun Shoot Volunteers Needed

The Saddle Butte Machine Gun Shoot Committee is seeking volunteers for this year's 25th anniversary event. The shoot is the third weekend in May (May 17 and 18). Volunteers are needed for setup on Friday, May 16 (noon until finished), both days during the event and also tear-down Monday, May 19 (8 am to approximately noon). Volunteers are needed at the entry gate, parking area, balloons and target setting, t-shirt sales and, of course, Range Officers. To volunteer please contact Allen Eriksen at Eriksenor@aol.com or by phone at (541) 967-4005 (please limit your calls to M-F 10 am to 2 pm and weekends only). This is a great fun way to get your work bond hours in! Volunteers need to be current ARPC club members. Please respond with your name, day(s) available, phone number and let Allen know if you are an ARPC Range Officer.

Single Stage Rifle and Pistol Reloading

On Saturday, March 29th, 2014 from 9:00 am to 5:00 pm the club will be hosting a Single Stage Rifle and Pistol Reloading class. There are four reasons to load your own ammunition...to save money, improve accuracy, they don't make it anymore or maybe they never did and for a hobby. All aspects of making "Custom Ammunition" will be covered with an emphasis on rifle accuracy. If you want to learn how to find that perfect load for your rifle then this is the class for you. If you're tired of paying \$50 to \$100 for a box of premium ammunition or you just want to research the possibility of making

your own "Custom Ammunition", this is the class for you. The cost is \$25.00 per person. Please e-mail Steve Shippey at steve@nomikes.com or call me at 503.851.3158 to reserve a seat in the class.

Bullseye Target Demonstration - Update

This is not an ARPC endorsement. These are the personal observations of Brian Boesch, ARPC member.

On Sunday, January 26th, Gary Williamson from Bullseye Cameras put on a demonstration at ARPC. Their system comes fully contained in a small plastic toolbox with room for a small notebook (notebook not included). You simply take the toolbox and your target to your target board, hang your target, mount the camera on the supplied tripod and point the camera at the target. Setup time is under five minutes. Once you verify through the notebook or laptop that the camera is on target, you walk back to the firing line and are ready to begin. You fire a shot, tap the spacebar and the camera takes a picture. The computer software senses a new bullet hole in the target and the laptop then shows the location of the hole with a flashing indicator. All hits are sequentially recorded for future review.

The system worked well during the demo. We had over 20 people come out to check out the system. Clarification: I misspoke last month in the newsletter. I said it would record a shot even if it passed through the same hole. 8370 When a bullet strikes the target, creating even a very small change, the system will record the hit. It is possible for the system to miss a shot once a hole in the target gets big enough for a bullet to pass through without disturbing the target. As with all things, this system has some limitations.

Considering the \$549 base price, computer not included, I feel it is a system that provides valuable information for a good price. If you would like to know more, Pat Reagan with Badman Bullets, also an ARPC member, is the local dealer. He can be reached @ (541)409-5047.
