

ARPC Saddle Butte Press February 2021 Newsletter

[Check Out Our Calendar of
Events](#)

NEWSLETTER FOR SALE POLICY CHANGE

Starting with the March Newsletter we will be purging all Sale Items on a monthly basis. If you wish to have your ad continue to run , you will have to inform us either by email (frontoffice@arpc.info) or in-person no later than the 25th of each month.

New Member Orientation Instructors

We have 2 critical volunteer groups at ARPC, our Range Safety Officers and New Member Orientation Instructors. Our NMO instructors provide a valuable service in training all members joining the club. Currently we have a great team and most of our instructors have been doing this for awhile. With Covid restrictions however, we need twice as many to cover the demand. So, we are in need of 1 more full time instructor and would like several alternates to fill in as needed. If you have a good grasp of the range rules and have a knack for teaching this would be a great position for you It would be about a 5 hours commitment once a month. There are some benefits to becoming an instructor besides giving back to the club.

If you would be interested in becoming an NMO instructor please contact
Brian Boesch Executive Director
execdirector@arpc.info

New Guardrails on Main Range

Here is Joe Schmidt hard at work installing these shiny new guardrails along the Main Range. Joe is frequently out here lending his expertise to various projects to improve the range. He is one of our many Members who volunteers their time and skills. Another volunteer we wish to thank is Matthew Hale who was out here picking up steel cases on

the East Range last week. Also a big thanks to all those who come out and help during Work Bond hours every month.

Pro Shop/Office Update

The office and Pro Shop are open 10 to 5 Monday thru Saturday. Please only one person in the Pro Shop at a time. We are out of primers. Powder is trickling in. Bullets are almost out of stock. We have daily limits on these items and are reordering as product becomes available. All popular reloading components are very hard to obtain so expect shortages. Please be patient with your fellow members as we all adjust through the new year and remember to observe social distancing guidelines while visiting the range.

Membership Account Access

We are utilizing QuickBooks Online to simplify the renewal and New Member process. This is a simple and safe system to use. We will email you an invoice. With a few simple clicks and your credit card information your dues will be paid. You will receive an emailed receipt showing your dues are paid. You can also mail us a check or pay in person. As an ARPC member you have access to your own section of the website. In that section you can update your mailing address and email address. Forgotten your login information? No problem. Just [email the office](#) and we'll send a reminder to your email address that we have on file.

Trap, Trap, and Trap!

Come join us to shoot trap every Wednesday and every third Saturday. We shoot regular trap from 1:00 to 2:00, then games from 2:00 until 5:00. We end early if shooters are done beforehand. Please call if you are running late.

Besides the regular safety gear you will need a shotgun and about 100 rounds of shot shells (no shot size larger than #6). If you want to try trap and don't have a shotgun contact me and I will loan you one of mine.

We can help you become a better shotgun shooter. I can meet you on the trap range before 1:00 and go over what's going on, shotgun discipline safety rules, etc. if you contact me ahead of time.

Also, if you have a youth shotgun shooter Dave Imel runs youth trap on Saturday mornings. See the ARPC website for his contact info. Starting in March, 5 stand (another shotgun sport) starts. Again check the website for information.

Please contact me for more information.

FOR SALE: Like new Marlin model 1893. very low round count. \$1,500
Call Debbie between 1 PM and 9 PM @ 541-974-0581

FOR SALE:

- 1 Each MEC 9000G configured for 20 Gauge
- 1 Each MEC 9000G configured for 28 Gauge
- 1 Each MEC 9000G configured for 410 Gauge

All three 9000G's are mounted on a piece of ¾" plywood with a rail around the outside of the plywood so parts and pieces don't fall on the ground. They are easily picked up this way and stable just sitting on a bench or other when set up. All three 9000G's are set up with a "Smooth As Silk" air cylinder which when connected to an air supply converts the re-loader into an automated progressive. The automation set includes the pressure regulator, an air filter, and the foot activation valve for the cylinder. All the re-loaders already have the necessary hardware on them to make each one automatic. To use this device all you do is remove two pins and move the cylinder to the 9000G re-loader that you want to use and insert the pins. You connect the foot valve to an air source and adjust the air pressure for that re-loader and off you go. I still have all the hardware if someone wants to convert the re-loaders back to a manual version. I also have a variety of spare parts and accessories for the re-loaders. I have pictures of the re-loaders if you would like to see the arrangement. They are all in great condition with hardly any use on the 28 and 410 re-loaders as I shot mainly 20 gauge. I want to sell them all as a package and this would be a great way for someone to get into reloading. The 2021 Midway list price is \$646.00 for 20 gauge and \$707.00 for the 28 and 410 gauges. This list price is for the 9000GN models which replace the G models. So, three new 9000GN's will cost you \$2061.00 + freight. Buy these three G model re-loaders, with the added on air cylinder, the extra parts and extra accessories for \$1,200.00 OBO. This is comparable with the low end prices on EBay without the automation set up.

About Us

Albany Rifle and Pistol Club is centrally located in Linn County, Oregon and consists of six ranges. We are a membership club; however, we feature a wide variety of shooting disciplines and educational classes that are open to the public. Contact us to schedule a range tour. You'll like what you see.

Office and Pro Shop Hours, Monday through Saturday, 10AM-5PM
