Events](#)

Fall Gun Show Cancelled

We have made the decision to cancel our 2021 Fall Gun Show scheduled for September 25th and 26th. With the Mask mandate back in effect and the uncertainty on whether or not social distancing will be reinstated, the Executive Board has determined that Cancelling is the best course of action. All of us are very disappointed as it will have been 18 months since our last one and we were looking forward to attending and checking out all the merchandise.

We know some members depend on these shows for work bond credit. We wanted to let you know about the cancellation as soon as possible so you could make other work bond plans. We always schedule work bond on the first Saturday of the month from 8AM to Noon. IF you have traditionally worked the Fall show to receive your work bond credit AND cannot work the regular work bond, please send Jonathan and [Email](#) explaining your situation and we will strive to make reasonable accommodations.

Pro Shop/Office

The office and Pro Shop are open 10 to 5 Monday thru Saturday. We got a shipment of Small Rifle Primers in. Powder is still trickling in. Bullets are in stock. We have daily limits on these items and are reordering as product becomes available. All popular reloading components are very hard to obtain so expect shortages.

What's Happening at the Range

There are many operations and events happening around the club in September and early October. Please remember to check the calendar before you come to the range so you will be aware of any closures or other special events that will impact Range and Bay availability.

1. We are adding a fire break behind the North and East Ranges. We will close

Bays according to necessity but will keep as many open as possible. If you are on the open bays please be aware we have an excavator.

2. A company called MT2 will be performing lead mining on our Ranges and Bays in early October. This will take approximately two weeks. We will close each area for two or three days as needed. Be aware of heavy equipment moving around the range.
3. Hunter Sight In Days will be on September 11th, 12th, 18th and 19th until 4 PM each day. It will utilize the North half of the Main Range and cease fires will be controlled by ARPC volunteers. There will be targets placed on the 50, 100 and 200 yard lines for member use on the South half. This is a Community Service we have provided for many years. It is a benefit to hunters and markets our club. Please expect delays if you want to set targets.
4. Old West Annual Match will be held Sept. 16th through the 19th on Bays 8 through 12.
5. We have applied for a Conditional Use Permit to add three Bays past Bay 12. Our hearing is set for September and if our permit is approved we will be excavating the areas this fall and next summer. Be aware of heavy equipment and possible closures as needed.

Hunter Sight In Days

Hunter Sight In Days will be on September 11th, 12th, 18th and 19th until 4 PM each day. We are looking for a few volunteers for this 4 day event.

ATF

The ATF has decided to take on several new projects this year. First is a new definition on what a receiver is and who can make one. It has always been legal for an individual to manufacture their own personal firearm. There are restrictions on interstate transportation and sales but it is legal. This new interpretation would make them illegal. This is the so-called “ghost gun” issue that has been pushed through the media. The second part of this defines a receiver in a new way. Many firearms have two basic main components. An upper and lower receiver. Since 1968 a frame or receiver has been considered the firearm. This was the serial numbered component that required a background check. Now they want to make every component a serialized, controlled part. There are many other issues with this proposal. Please read it and contact your Federal Representatives as soon as possible.

<https://www.federalregister.gov/documents/2021/05/21/2021-10058/definition-of-frame-or-receiver-and-identification-of-firearms#open-comment>

Secondly is a new definition on arm braces. This will make major changes to current rules regarding AR pistols. Please comment through the link below and contact your Federal Representatives regarding this proposal.

<https://www.federalregister.gov/documents/2021/06/10/2021-12176/factoring-criteria-for-firearms-with-attached-stabilizing-braces#open-comment>

All of these new interpretations are another restriction on our rights in a veiled attempt to cut “gun violence”. No need to arrest criminals or gang members since they provide the “need” for these changes. Please take the time to let your Federal Representatives know your position on these proposed restrictions.

Fire Season

With the high heat, lack of rain and the farmers cutting their fields, we all need to be aware of fire dangers and the protocol for dealing with fires should they start. Straw and other flammable debris can catch fire from stray bullets, hot cartages and such. To help prevent fires, we are asking our membership to follow these temporary procedures:

1. Smoke only in vehicles.
2. Make sure that targets are above ground level and all bullets go into the bullet retention berms.
3. When entering the bays or ranges note where the fire extinguishers are located as well as the the emergency contact information.

Should a fire start:

1. Call 911.
2. If you have any firefighting experience utilize the fire extinguishers spread throughout the range. Do NOT put yourself in harms way!
3. Locate the Emergency call list that you will find in every bay and in every range and call the numbers in descending order until you get ahold of someone.
4. If you are with others have one of them go to the other bays and ranges, and instruct people to evacuate the range in a orderly manner without blocking the fire lanes.
5. Have someone drive down and get the gate open for the fire departments and direct them where to go.
6. As soon as things calm down please write down what you witnessed and provide your statement to the office.

Steel Safety

Steel reactive targets are fun to shoot. As with all things at the range safety needs to be paramount. Which is why we have range rules on what quality steel targets you can use and where you can use them. The picture to the left demonstrates some steel that is unsafe. This plate is mild steel. Note the deep indentations in the steel. If a bullet were to hit one of these indentations it can come flying back at you or others causing injury, property damage or both. Do not bring mild steel, cast iron or other non AR500 plates to the range.

We recommend AR-500 steel to be used as targets. That is the same caliber of steel used for the targets we sell at the Pro Shop. Safe shooting distances are also important. At ARPC minimum steel engagement distances are: 12 yards for pistols, 50 yards for shotgun slugs and 100 yards for rifles.

New Lights On The Main Range

These new lights were installed so members can see when they enter the Main Range in low light conditions. For those members that want to shoot in low light conditions we added timers to turn the lights off. These timers are on the back wall along with the old timers that turn on the main fluorescent lights. So whether you want a little light, a lot of light, or no light, all it takes is a convenient turn of a timer or two.

ARPC Classes in September

Basic Handgun September 4

Skills Clinic September 22

Safety and Basic Skills Evaluation September 23 & 30

Concealed Carry September 26

Please check out our calendar for up to date information regarding our classes.

For Questions about classes please contact our Chief Instructor:

Jim Gallant

ci@arpc.info

Basic Handgun

Our Basic Handgun class at ARPC focuses on handgun familiarity and safety. There are no prerequisites for this class. The intent is to provide basic training for those with little or no shooting experience and for those who want a refresher on the basics. We have had experienced shooters with no formal training benefit from taking this class. Basic Handgun is 5 hours and participants will need a semi-auto handgun, and 50 rounds of new ammo (.380 to .45)

To register for a class please email classes@arpc.info

Safety & Basic Skills Evaluation

This is a Skills Evaluation Test to demonstrate that you possess the necessary skill level to bypass our basic classes and advance into Level 1 Handgun or AR Level 1 **THIS IS NOT AN INSTRUCTIONAL OR A TEACHING CLASS!!**

To register for a class please email classes@arpc.info

Concealed Carry

In this class you will receive the training qualifying you to apply for both the Oregon

Concealed Handgun License and the Utah Concealed Firearm Permit. We teach both because the Oregon permit is limited to Oregon only, so travel out of state is problematic. The Utah concealed permit covers 32+ states. What makes this course unique is that we also provide the photo, the two sets of fingerprints, the application, and an addressed and stamped envelope for the Utah license, so after class you can just drop it in the mailbox. ARPC is a non-profit organization and provides this service to the community by helping to subsidize the cost of this class.

To register for a class please email classes@arpc.info

Skills Clinic

Our Clinics are designed give those who have attended one or more of our classes the opportunity to get additional training on a single skill covered in that class.

To register for a class please email classes@arpc.info

Membership Account Access

We are utilizing QuickBooks Online to simplify the renewal and New Member process. This is a simple and safe system to use. We will email you an invoice. With a few simple clicks and your credit card information your dues will be paid. You will receive an emailed receipt showing your dues are paid. You can also mail us a check or pay in person. As an ARPC member you have access to your own section of the website. In that section you can update your mailing address and email address. Forgotten your login information? No problem. Just [email the office](#) and we'll send a reminder to your email address that we have on file.

Newsletter Classifieds Policy

All Sale/Wanted Items are on a monthly basis. If you wish to place an ad or have your ad continue to run , you will have to inform us either by email (frontoffice@arpc.info) or in-person no later than the 25th of each month.

Classified Section

Dogman200@comcast.net

FOR SALE OR TRADE:

Cash or trade considered. All transfers done at Tick Licker Firearms in Corvallis, OR. Buyer pays transfer and background fees.

Remington 870 Magnum Youth Shotgun, 20GA - \$600

Almost New in Box, manufactured 1990's. 9 shots total fired through it. Original box and paperwork included. Near perfect condition.

Ruger LCP, Version 1, Plus Accessories, .380 - \$230

Deepend slide serrations for better grip of slide, 2 OEM mags (one 6 round, one extended 7 round), neoprene holster, mag holster, Clipdraw installed, original box w/manual. The slide serrations aren't pretty as I did them for function, not fashion.

Remington Model 514, Single Shot, .22lr - \$150

No serial number stamped (common with these rifles), unknown age but assuming late 1940's or early 1950's per original owner, single shot, bolt action, can shoot .22lr or .22short.

Iver Johnson Champion, Single Shot Shotgun, break action, 12GA - \$100

Single shot shotgun. I've taken it apart and cleaned it up, everything functions and is tight. Would be a cool wall hanger or functioning shooter.

NR Davis and Sons Side by Side - 12GA - \$200

Beautiful, antique, red toned receiver. Serial number is '34'. The left barrel looks like it sustained some unique wear from the outside. Hairline crack in stock. I've taken it apart and cleaned it so everything seems to function properly including the safety, foregrip release, both triggers and automatic ejectors. Beautiful wall hanger.

Batavia Leader by Baker Gun Co, Side by Side, 12GA - \$400

Antique, gorgeous Damascus/London Twist barrels, serial number 75,XXX. Cleaned and everything functions. Cracked stock: price reflects replacing stock to make a functioning shooter, plus time, etc...
