

## ARPC Saddle Butte Press September 2022 Newsletter

[Check Out Our Calendar of Events](#)

### Political Issues

I urge everyone to become political activists **now** in order to preserve and restore our freedoms. Our ways of life our being challenged from a variety of sources and if we do nothing we will lose everything we hold dear. Here is a 35 minute speech from President Biden. [Speech](#) Please listen to it in it's entirety. This speech is full of lies, or to use our new euphemisms, misinformation or disinformation, concerning firearms and the damage uniquely caused by AR15s. Apparently the bullets travel 5 times faster than other rifles and disintegrate the human body on impact. I found these statements interesting since I switched to an AR15 for hunting over a decade ago. In my testing I found minimal tissue damage to the deer over my traditional hunting rifles. This abuse of power by a President of the United States is reprehensible but not surprising.

How do you get involved? First, contact every one of the Politicians that represent you. Tell them how you feel and that you will vote against them if they do not support your current rights. Financially support organizations that lobby for issues you believe in.

### Ballot Measure 114

As you are probably aware, there is a November Ballot Measure that will radically change the lives of all firearm owners for the worse while accomplishing nothing towards gang violence, public shootings or suicide prevention. This bill will require you to have a license to purchase firearms, add a training program that is unfunded and doesn't exist, will severely limit when and how you can use a magazine over 10 rounds, will outlaw legitimate businesses and eliminates the safeguards against Government abuse of background checks. Here are a series of links released by OASR and OSSA about this ballot measure. [HERE AND HERE](#) [OSSA OSSA Political page](#) Please review this information and consider supporting this cause. Another good resource is [OFF](#) They are starting a separate PAC to defeat 114. I am sure there are other great organizations pursuing this cause as well.

As I see it, if we do not Politically confront these attacks we will see further degradations of society. I believe some of the Government rhetoric is an attempt to instigate violence so they can play the victim. The Government will spend as much as it takes to retaliate against any violence and will be all too happy to play the "Right Wing Extremist" card. Do not be their "Useful Idiots". Get off your butt and do

something proactive and legal to turn the tide.

---

## Pro Shop/Office

The office and Pro Shop are open 10am to 5pm Monday thru Saturday.

**The Pro Shop will be closed Monday, September 5th in honor of Labor Day.**

---

## Fall Gun Show

We are holding our Fall Gun Show and it is scheduled for September 24<sup>th</sup> and 25<sup>th</sup>, 2022 at the Linn County Fair and Expo Center. Wear your badge and get in for free! We have over 400 tables of merchandise for your viewing pleasure. Hours are Saturday, 9am to 5pm and Sunday, 9am to 3pm. Admission is only \$10 for the premier gun show in the Willamette Valley.

If you are interested in being a Vendor, please go to our website and click on “gun show” under “info” or follow the link below.

<https://www.arpc.info/docs/gunshow/Application%20Fall%202022.pdf>

Print the application, fill it out and mail it to:

ARPC  
29999 Saddle Butte Rd  
Shedd Or 97377

We will fill open tables based on postmark date.

---

## Fall Gun Show Volunteers

We are in need of volunteers to help facilitate the Fall Gun Show.

We need people from Friday morning to Sunday evening. This includes 2, 12 hour over night shifts for Friday night and Saturday night. The daytime shifts are broken down into 6 hour shifts. **TO SIGN UP FOR A SHIFT: DO NOT CALL OR COME TO THE PRO SHOP TO SIGN UP!!!** Please send email [frontoffice@arpc.info](mailto:frontoffice@arpc.info) and include the following information:

Name:

Phone number:

Please let us know which day(s), morning or afternoon and Position.

Thank you to all the ARPC volunteers.  
We cannot hold this event without your help.

---

## Hunter Sight In Days

Albany Rifle and Pistol Club will be open to the general public for 2 weekends in September to sight in hunting rifles. The days are Saturday and Sunday, September 10th and 11th as well as Saturday and Sunday September 17th and 18th, from 9am to 4pm, with the last shooter being at 3:30pm. The cost is \$10 per rifle and this includes targets. This service is free to ARPC Members. Experienced club members will be assisting each person during the sight-in process to make sure the range is operating safely. Everyone must wear eye and ear protection. Safety glasses and ear plugs will be available for purchase if someone forgets to bring them.

We are looking for a few club members to help at the Hunter Sight-In Days. If you would like to volunteer for this 4 day event please email [frontoffice@arpc.info](mailto:frontoffice@arpc.info)  
Name:  
Phone number:  
If you have a preference of Day, please let us know.

---

## Destruction of your Property

Our range has recently been experiencing damage to our targets. Not once but twice now, we have placed the 18" steel target up on the 200 yard range and it has been destroyed both times. Once within the course of 12 hours and the other over a weekend.

We've had willful destruction of a sign on a bay. The Archery Range Target Buts and 3D Archery Targets have been shot with broadhead arrows. Broadheads are prohibited as they damage the targets and are a safety hazard to our members and staff. One abandoned broadhead cut the finger of one of our maintenance staff while he was performing routine maintenance.

Not only does this cost money to replace the targets but it also takes hours away from our maintenance crews normal job duties. If you witness someone damaging ARPC property it is your duty as a member to report them.

---

# Updated Range Rules

Our Range Rules were recently updated. As always, please refer to our website and the posted rules around the range for detailed rules. Here are some highlights:

1. Golf balls are added to the list of targets NOT allowed on the Range.
2. You are not required to wear your Badge when practicing dynamic shooting (running and gunning) on Bays 1-12. You are still required to have it in plain sight for identification by RSOs and other staff. Guests are always required to wear their guest stickers on their person. This rule was modified due to safety concerns of a lanyard getting hung up on a firearm or otherwise causing an unsafe condition. Please continue to wear your Badge when not involved in dynamic practice. This rule does not pertain to the rest of the range.
3. Speaking of dynamic shooting we added an explanation on how to do so in a safe manner (please refer to specific rules section of the Range Rules - North and East Bays #3).
4. We made the temporary rules on Bays 7 & 8 permanent regarding ground targets and steel. This was caused because these two Bays are not aligned with the Butte. Ricochets and bullet splatter can adversely affect other bays because of this alignment. We lowered the risk by increasing the berm height, but it did not resolve the issue. If the bullets all strike the retention berms the risk drops considerably.
5. There are some other modifications as well and again we urge you to read the complete set of rules on the website.

---

## LEAD MINING ON THE RANGE IN AUGUST

We hired MT2 to mine the lead off our ranges and bays.  
The mining is finished, they recovered 26 tons of lead.  
Thank you for your patience and understanding of the main range and bay closures.

---

Letter from our Chief Instructor:

### **My Box Of Shame: The Holster Dilemma**

Anyone who owns a gun for concealed carry, or for range use, or for competition, should be familiar with the fact that we often end up with more holsters than guns! It is just a fact of life. How and why does this happen? So, as always, I do not profess to be a holster expert, but I have owned guns and holsters for over 35 years. For most of that time, I have practiced concealed carry. Until you try the holster, you won't know if it works for you. Every gun may be a bit different, every human body has its unique features, and where we choose to carry changes with circumstances. Some people are able to return the ones that are a problem for them. But most, myself included, toss them in a box. Over the years, the box gets bigger. So in this article I will attempt to review some ideas about holsters.

Before we use a holster, we need to recognize that without a good belt, any holster may be more of a liability than an asset. The belts are typically 1 ½ inch wide, and stiff. I am not promoting any company, and there are many other great belts, but for example only, go to the website for Kore gun belts. They are a reputable company with excellent products. You can learn a lot about gun belts there. As I said, there are many other excellent manufacturers. Women have difficulty with belts because many of the slacks they wear may not have adequate belt loops, and often a large gun belt may not

be fashionable for the attire. Don't worry ladies, there are many companies that focus just on holsters for women. Just google it and you will see.

The purpose of a holster is to cover the trigger. It is that simple. It is a major safety tool. A loaded gun can be carried safely if the trigger is covered. There are different types of holster material. Classic leather is excellent, but may loosen with use and age. Kydex is a polymer that is the most common one in use today because it's versatile and can be made for any gun. Then there are the nylon ones like Uncle Mikes. These are only good for storing a gun, as the holster mouth may collapse upon attempts to reholster so we advise against their common use for concealed carriers. There are ones that combine different materials (hybrid), such as leather and Kydex together. Others may use some type of foam or other backing material that mitigates the moisture from sweating.

OK, so are you still with me? Next is what type of holster, as in outside the waistband (OWB), inside the waistband (IWB), inside the waistband appendix (AIWB), pocket carry, ankle carry, bra carry (Flash Bang), thigh carry, belly band carry, pocketbook carry, shoulder carry, inside thigh carry, and outside thigh carry. There are even more types, beyond the scope of this article.

Once you decide what type, then you need to decide about retention. This is not intended for LE or military, where high retention may be required. For civilians, if you turn the holstered gun upside down does it fall out? Is it easy enough to unholster on the draw with a firm grip and tug? Does the release sit over the covered trigger, risking negligent discharge upon rapid draw (older Serpa styles); these are not recommended. Most people, especially the many instructors I know, nowadays are using a Kydex AIWB carry because of its rapid deployment and ease of use. Caution, we require OWB 3 o'clock carry for our classes due to safety concerns.

Our classes and instructors can help you determine what style of holster and position of carry is best for you. If you want to know more, sign up either for a class or a private lesson. It is worth the cost, because holsters should not be comfortable, they should be comforting! Don't leave home without one.....

Jim Gallant  
Chief Instructor, ARPC  
541-740-7635

## ARPC Classes in September

Safety & Skills Evaluation: September 1, 2022

Basic Handgun: ~~September 4, 2022~~ Canceled

Skills Clinic: September 8, 2022

Concealed Carry: September 10, 2022

Indoor Range Safety: September 10, 2022

AR Level 2: September 17, 2022

Trauma First Aid: September 17, 2022

AR Fundamentals: September 18, 2022

Handgun Level 2: ~~September 24, 2022~~ Canceled

Private Instruction: Times to be determined on an individual basis

### ***October preview-***

*Cleaning Class: October 4, 2022*

### ***Coming in November***

*Low Light Handgun 1: November 21 & 22, 2022*

*Please check out our calendar for more information regarding our classes.*

To register for a class please email [classes@arpc.info](mailto:classes@arpc.info)

---

## **Basic Handgun**

Our Basic Handgun class at ARPC focuses on handgun familiarity and safety. There are no prerequisites for this class. The intent is to provide basic training for those with little or no shooting experience and for those who want a refresher on the basics. We have had experienced shooters with no formal training benefit from taking this class. Basic Handgun is 5 hours and participants will need a semi-auto handgun, and 50 rounds of new ammo (.380 to .45)

## **Safety & Basic Skills Evaluation**

This is a Skills Evaluation Test to demonstrate that you possess the necessary skill level to bypass our basic classes and advance into Level 1 Handgun or AR Level 1 **THIS IS NOT AN INSTRUCTIONAL OR A TEACHING CLASS!!**

## **Concealed Carry**

In this class you will receive the training qualifying you to apply for both the Oregon Concealed Handgun License and the Utah Concealed Firearm Permit. We teach both because the Oregon permit is limited to Oregon only, so travel out of state is problematic. The Utah concealed permit covers 32+ states. What makes this course unique is that we also provide the photo, the two sets of fingerprints, the application, and an addressed and stamped envelope for the Utah license, so after class you can just drop it in the mailbox. ARPC is a non-profit organization and provides this service to the community by helping to subsidize the cost of this class.

## **Skills Clinic**

The purpose of ARPC Classes is to ensure that you get the training you need to use your firearm safely and proficiently. With this in mind, we are now offering a free clinic that allows you to get additional training on one skill that was covered in the ARPC classes that you passed. One Clinic per class please.

## **AR Fundamentals**

Our AR Fundamentals class at focuses on the modern sporting rifle (MSR) familiarity and safety. There are no prerequisites for this class, as the intent is to provide basic training for those with little or no shooting experience, and for those who want a refresher on the basics. You may bring any modern sporting rifle (MSR), which includes AR-15 style firearms and AK's, but please be aware that advanced classes will be AR-15 (.223 or 5.56) only. AR Fundamentals is a 6 hour class and participants will

need a MRS, 60 rounds of new ammo, 2 mags holding 10 or more rounds.

## **Trauma First Aid**

This is a First Aid Class that will cover common injuries but includes more on the type of injuries you might see while participating in shooting sports. This is a hands-on class and may use a pig's shoulder as a teaching aid. As an added bonus, you will receive a CPR, AED, and Basic First Aid Certificate Card at no extra charge.

## **Cleaning Class**

Shooting is fun, cleaning generally is not! But it is a necessary part of firearms knowledge and safety. This class is intended for any firearm owner to better learn how to clean their specific gun, whether it be a handgun, rifle, or shotgun. There is no one correct way to clean, as individual preferences abound. The purpose of this class is to expose the student to different methods of cleaning, from the use of solvents, lubricants, gun oils, CLP, ultrasonic cleaners, air compressors, and don't forget your old toothbrush! Bring your gun(s) and learn from experienced instructors. Bring whatever supplies you ordinarily use. If you have never cleaned a gun before or have no supplies, no worry, this class will help you decide what you do need to clean your gun. We will have supplies to borrow and use for students without their own.

---

## **Level 1 Classes**

### **AR Level 1**

This class is the next level above our AR Fundamentals class and will build on the skills and knowledge covered in that class. The prerequisite is either ARPC's AR Fundamentals or our Safety & Basic Skill Evaluation. AR Level 1 will be 6 hours and participants will need to bring an AR-15 (.223 or 5.56), 100 rounds of new ammo, and at least 2 Mags holding 10 or more rounds.

### **Handgun Level 1**

This is the next level above our Basic Handgun class and will build on the skills and knowledge covered in that class. The prerequisite is either Basic Handgun Class or our Safety & Basic Skill Evaluation. Level 1 Handgun will be 6 hours and participants will need to bring a semi-auto handgun (.380 to .45), 100 rounds of new ammo, and an outside the waist holster.

---

### ***Cleaning Class - October 4th***

Shooting is fun, cleaning generally is not! But it is a necessary part of firearms knowledge and safety. This class is intended for any firearm owner to better learn how to clean their specific gun, whether it be a handgun, rifle, or shotgun. There is no one correct way to clean, as individual preferences abound. The purpose of this class is to expose the student to different methods of cleaning, from the use of solvents, lubricants, gun oils, CLP, ultrasonic cleaners, air compressors, and don't forget your old toothbrush! Bring your gun(s) and learn from experienced instructors. Bring whatever supplies you ordinarily use. If you have never cleaned a gun before or have no supplies, no worry, this class will help you decide what you do need to clean your gun. We will have supplies to borrow and use for students without their own.

## ***Low Light Handgun - November 21st & 22nd***

Our low light classes are intended for primarily home defenders or anyone out at night and armed. Our lead instructor will provide both classroom as well as range experience. We have chosen a night with little moonlight. The demonstration and practice drills will be both dry fire and livefire. The first night is classroom and the second night is range. Different hand held techniques and weapon mounted lights will be covered. This next class will be the level 1 class. We are planning a level 2 low light class early next year, for more advanced skills teaching. Remember, never shoot at something that you can not identify; never shoot at shadows, sounds, or shapes! When there is a bump in the night at zero dark 30, what should you do? Come to class and find out!

---

## **Newsletter Classifieds Policy**

All Sale/Wanted Items are on a monthly basis. If you wish to place an ad or have your ad continue to run , you will have to inform us either by email ([frontoffice@arpc.info](mailto:frontoffice@arpc.info)) or in-person no later than the 25th of each month. **NO PICTURES.**
